U.S. Patent and Trademark Offic PTOL-326 (Rev. 7-05) 1. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The structure recited in the claims should be clarified, with each element being clearly defined and related to the structure as a whole. For example, in claim 1, the structure of the pumping means, the containment modules, the supports and their relationship is unclear, as well as how the traction assemblies drive the pumps and how the material is treated. Indefinite language, such as "preferably" should be avoided. While the use of figure reference numbers in a claim is permissible, the claims should be complete and clear without requiring reference to the drawings.

Claim 29 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim 29 is a method claim improperly dependent on an apparatus claim and therefore fails to limit the structure recited in the parent claims. The claim should be rewritten in independent form.

The following is a quotation of the appropriate paragraphs of 35
 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Art Unit: 1724

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Bezemer, Addeo, Sachse, Muller, Garland or Brown.

Bezemer, Addeo, Sachse, Muller, Garland and Brown each disclose barriers supported at each end made from plural modules and with pumping means, as claimed.

4. Claims 2-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The recitation of an active barrier in the form of two vertically spaced floats with a skirt, two collecting tubes alongside the floats, with quick connection joints, the barrier with a pumping means in the collecting tube, supported at both ends with supports having pump driving and water treatment means patentably distinguishes over the prior art of record.

Claims 20-28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The recitation of an active barrier formed of plural modules having a pumping means in a containment module, supported at both ends with supports having pump driving and water treatment means, where the treatment and driving means comprises

Art Unit: 1724

a tank with three compartments, two connecting tubes for the containment module, and a pulley in each of the first and third compartments for driving the pumping train, patentably distinguishes over the prior art of record.

- 5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other references of interest include Gould (cited in the PCT search report), Eddleman, Challener, Dahan, Rolls, and Rhodes.
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Upton whose telephone number is 571-272-1169. The examiner can normally be reached on 7:30-5:00, off every other Monday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
